HOUSEHOLD BREVITIES.

Stewed Carrots.—Boil carrots until they are tender, then cut them in thin slices and put them in a stewpan with a little milk, a generous amount of butter, and pepper and salt to taste. Let them simmer a little while, then serve them hot.—Housekeeper.

Apple Rice Pudding.—One cupful of rice, six chopped apples, one pint of milk, one cupful of sugar, beaten yolks of four eggs, juice and rind of one lemon. Bake for 30 minutes, spread on the beaten whites with two tablespoonfuls of sugar, and brown.—Good House-keeping.

Orange Jelly.—One box of gelatine soaked in one-half pint of cold water for one hour; add the juice of three lemons, one quart of boiling water, and one and a half pounds of "Coffee A" sugar. When all is dissolved, add the juice of eight or nine oranges.—Demorest's Monthly.

For buttermilk muffins use one quart of buttermilk, two well-beaten eggs, a teaspoonful of soda dissolved in a little hot water, a little salt and flour as required. Add the eggs to the buttermilk, beating it quite hard for a few moments, then stir in the other ingredients, using sufficient flour to make a good batter. Bake in a quick oven.—N. Y. World.

Cheese Cream Cake.—One cupful of sugar, one cupful of sweet milk, two cupfuls of flour, one egg, one tablespoonful of butter, one teaspoonful of baking powder, favor to suit taste and bake in layers. Filling: One egg, one-half cupful of sugar, one-fourth of a cupful of flour, mixed with a little cold milk, and stirred into one cupful of boiling milk; boil until thick, and then add flavoring; sprinkle the top of the cake well with powdered sugar.—Boston Herald.

A room properly swept and dusted will keep clean a long time. In dusting, also, there should be some method. Begin at one side of the room and take every thing as you come to it, from the highest to the lowest, giving your duster frequent shakings out of a window; or you may first dust all the bric-a-brac, then the pictures, then the tables, etc. In all cases wash, rinse and hang your duster to dry as soon as you are through, so that it will be clean for next time.

Cabbage Salad.—Boil the heart in salted water till tender, but not too soft. Then strain well and set in a cool place, or on ice, first pulling the leaves apart so that no wet lumps within. Make a dressing with the raw yolk of an egg, a tablespoonful of salad oil, two tablespoonfuls of cream, two tablespoonfuls of vinegar and a teaspoonful each of mustard, salt and pepper. Chop the cabbage, add to the mixture, and garnish with slices of tomato.—Springfield (Mass.) Republican.

Potatoes With Ham.—Boil some potatoes, slice them quite thin, put them in a pan with a good-sized piece of butter, and let them heat thoroughly, but not fry; boil four eggs hard and chop them fine; and chop fine about as much cold boiled ham as there is of potato; put all into a dish in layers, with a little salt, parsley, and chopped onion on each layer; pour over the whole four large cupfuls of cream, cover the top with bread crumbs, dot the bread crumbs with small bits of butter, and bake a light brown.—Chicago Inter Ocean.

A Canadian Dish.—Ingredients: Two ounces butter, three eggs, one cup rich, sweet milk, eight ounces cheese, four ounces bread crumbs. Put bread crumbs into a large bowl; add butter and cheese (cut into small shreds); scald milk and pour over, after which add yolks of eggs, well beaten, and a little salt; mix well; cover and set on back of range until all are dissolved and incorporated, stirring occasionally with spoon; about twenty minutes before the meal add the frothed white of the eggs; put into pudding dish, and bake briskly for twenty minutes; serve hot with or without mustard.—Detroit Free Press.

THE CHINESE TO RULE.

Lord Wolseley For the Peace Becomes a Prophet of Evil.

Lord Wolseley believes that the Chinese are the coming race, and that they will overrun the world the moment a great General or law-giver arises among them. For three hundred years the Chinese have been ruled by "the simple method of having all the more active, capable and progressive heads shorn off by the Tartars." No one of more than average intelligence is permitted to exist, and the Government is on one side an organized system of massacre. When Commodore Leeb was asked whether it was true that he had beheaded 60,000 men in three years his answer was: "Oh, surely more than that!" Some day, however, a new Chinese Moses will arise and resist. The people, who are so fearless, will then, Lord Wolseley thinks, adopt the profession of arms, hunt themselves on Russia, and sweep over her, India and the continent of Europe. The English, the Americans and the Australians will have to rally for a desperate conflict, probably in Western Asia, which will be a veritable battle of Armageddon. Such practical uses are, of course, of small practical use; but we agree that a very little might set the Chinese moving, and that her millions once let loose, could no more be stopped than a stream of lava. Lord Wolseley is all for keeping on good terms with the Chinese and so are we; but at the same time we do not forget that the Roman Emperors who tried to conciliate the Goths fared no better than those who defied them.—Spectator.

THE CROTON AQUEDUCT.

It Is the Greatest Engineering Work of Its Kind in the World.

There is good reason for the residents of New York City to rejoice at the opening of the new Croton Aqueduct. The permanent opening is to be regarded as an event of greater importance to the Empire City than any that has occurred since the opening of the old aqueduct, when the populace hailed it with rejoicing, and people came from far and near to participate in the greatest civic affair that had taken place in the New World. In all ages, a plentiful supply of wholesome water has been considered the greatest benefit which could be conferred on a community; and even to this day, in some lands the waters are held sacred and worshipped as the source of life. The "Sacred Ganges" in India is worshipped by the Hindus, and even among Christian nations the worship of wells was at one time general. But the efforts made in all ages and all lands to collect and distribute water find their crowning culmination in this nineteenth century of ours. The new Croton Aqueduct is the greatest and most capacious water-carrier in the world, and will bring from the Croton and Bronx river water-sheds a supply of their crystal torrents sufficient for a population of 2,100,000, or 500,000 more than the population of New York City. The ancient Romans knew the value of good water, and in the reign of Nerva there were nine aqueducts "pouring rivers into every part of Rome;" and Rome's decay dates from the siege of the Goths, who broke the aqueducts, and, by thus cutting off the water-supply, brought the city to submission. It is not saying too much to declare that the future greatness of New York depends upon its water-supply as much as Rome's did, although there is not the same risk of an invading force.—Demorest's Magazine.

He Was Both.—"I always understood that Trotter was a Colonel during the war," said Tomdick. "Now you say he was a contractor." "So he was," replied McClammy. "He contracted malaria while in the army."—Chicago Inter Ocean.

Deafness Can't Be Cured by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

J. J. CURENEY & Co., Toledo, O. Sold by Druggists, 75c.

A Tenuous Clutch. Is that of dyspepsia. Few remedies do more than palliate this obstinate complaint. Try Hostetter's Stomach Bitters, however, and you will find that it is conquerable, along with its symptoms, heartburn, flatulence, nervousness, and loss of flesh and vigor. Bilelessness and constipation frequently accompany it. These, besides malarial, rheumatic and kidney complaints, are also subduable with the Bitters.

"You're always full of news," said the letter to the box. "I'm glad you've dropped in," replied the box. "I'll keep you posted."

Any of the new-fangled washing compounds as good as the old-fashioned one! Dobbin's Electric Soap has been sold every day for 24 years, and is now just as good as ever. Ask your grocer for it and take no other.

The young man who forged his way to the front is now in the penitentiary.—N. Y. Ledger.

When a clock strikes it is working, but when a man strikes he isn't.

A SLAYER—Vesuvius.

SUPPOSITIONS—Infer, not.

WORK on tick—Clocks.

GREEN and silly—Parrots.

A nod of iron—The crowbar.

GIVE a feeling of security—Handcuffs.

TALK better than they know—Parrots.

TRANSPORTS of pleasure—Steam yachts.

ART NOTES—Ten thousand for a picture.

AFTER the ball—A clove—Puck.

A SWELL dinner—dried apples and water.

TEXAS Siftings.

A SMALL dinner party—The little butter.

THE waiter in a bustling restaurant always "sets the table" in a roar.—Puck.

THE Kurds ought to know all about cheese-making.

PEOPLE who never dye—Those who have gray hair.—N. Y. Mail and Express.

It requires but little musing to blast a reputation.—Texas Siftings.

THE prima donna's welfare depends upon her farrow.—Elmira Gazette.

"Por," said Willie, "what makes them call our old horse a 'plug'?" "Because he is such a stopper, Willie," replied the old gentleman.—Washington Post.

In school.—"We come now to transparent objects. Emily, give me an example." "A pane of glass." "Correct; and now Sophy may give one." "A key-hole."—Ellegance Blatter.

"Well, your goose is cooked!" exclaimed Woodgrove, as he entered his parlor. "Who has been roasting you this time, love?" asked Mrs. Woodgrove, anxiously.—"Mum!" said the boy.

The railroad engineer may not have much style about him, but wealth and fashion follow in his train.

A DOCTOR'S CONFESSION.

He Doesn't Take Much Medicine and Advises the Reporter Not To.

"Humbly! Of course it is. The so-called science of medicine is a humbug and has been from the time of Hippocrates to the present. Why the biggest crank in the Indian tribes is the medicine man."

"Very frank was the admission, especially so when it came from one of the biggest young physicians of the city, one whose practice is among the thousands, though he has been graduated but a few years," says the Buffalo Courier. "Very cozy was his office too, with its cheerful grate fire, its Queen Anne furniture, and its many lounges and easy-chairs. He stirred the fire lazily, lighted a fresh cigar, and went on."

"Take the prescriptions laid down in the books and what do you find? Poisons mainly, and nauseating stuffs that would make a healthy man an invalid. Why in the world science should go to poisons for its remedies I cannot tell, nor can I find any one who can."

"How does a doctor know the effect of his medicine?" he asked. "He calls, prescribes, and goes away. The only way to judge would be to stand over the bed and watch the patient. This cannot be done. So, really, I don't know how he is to tell what good or hurt he does. Sometime ago, you remember, the Boston Globe sent out a reporter with a stated set of symptoms. He went to eleven prominent physicians and brought back eleven different prescriptions. This just shows how much science there is in medicine."

There are local diseases of various characters for which nature provides positive remedies. They may not be included in the regular physician's list, perhaps, because of their simplicity, but the evidence of their curative power is beyond dispute. Kidney disease is cured by Warner's Safe Cure, a strictly herbal remedy. "Thousands of persons, every year, write as does H. J. Gardiner, of Pontiac, R. I., August 7, 1890:

"A few years ago I suffered more than probably ever will be known outside of myself, with kidney and liver complaint. It is the old story—I visited doctor after doctor, but to no avail. I was at Newport, and Dr. Blackman recommended Warner's Safe Cure. I commenced the use of it, and found relief immediately. Altogether I took three bottles, and I truthfully state that it cured me."

Our photographer invited another photographer to lunch with him, but neglected to order any thing to drink, until his friend asked him if he worked the "dry place" altogether.—Texas Siftings.

A SORE THROAT OR COUGH, if suffered to progress, often results in an incurable throat or lung trouble. "Brown's Bronchial Troches" give instant relief.

There is as useful as an article of food, as a destroyer of insects, as a layer of eggs, at a settler's.—Washington Post.

The Public Awards the Palm to Hale's Food of Household and Far for coughs. Pike's Toothache Drops cure in one minute.

Stone of autumn—"Oyster stew." "Hot Frankfurters." "Roasted Chestnuts."—Boston Herald.

Talking of patent medicines—you know the old prejudice.

And the doctors—some of them are between you and us.

They would like you to think that what's cured thousands won't cure you. You'd believe in patent medicines if they didn't profess to cure everything—and so, between the experiments of doctors,

and the experiments of patent medicines that are sold only because there's money in the "stuff," you lose faith in everything.

And, you can't always tell the prescription that cures by what you read in the papers.

So, perhaps, there's no better way to sell a remedy, than to tell the truth about it, and take the risk of its doing just what it professes to do.

That's what the World's Dispensary Medical Association, of Buffalo, N. Y., does with

Dr. Pierce's Golden Medical Discovery, Favorite Prescription, Pleasant Pellets, and

Dr. Sage's Catarrh Remedy. If they don't do what their makers say they'll do—you get your money back.

What folly it would be to cut grass with a pair of scissors! Yet people do equally silly things every day. Modern progress has grown up from the hooked sickle to the swathing scythe and thence to the lawn mower. So don't use scissors!

But do you use SAPOLIO? If you don't you are as much behind the age as if you cut grass with a dinner knife. Once there were no soaps. Then one soap served all purposes. Now the sensible folks use one soap in the toilet, another in the tub, one soap in the stable, and SAPOLIO for all scouring and house-cleaning.

Washington and Oregon.

This new empire of the North West is attracting universal attention and the reason for this is the almost unlimited resources that have recently been opened and the surprising growth of this region. Large agricultural areas; vast forests and immense deposits of precious metals are to be found in Oregon and Washington, and by reason of the varied natural resources of the country this section offers unequalled opportunities for the investment of capital and location of industries that are not surpassed by the older sections of the United States. The Union Pacific on account of its fast time, through Pullman Sleepers and dining cars, Free Reclining Chair cars and Free Colonist Sleepers from the Missouri River, is conceded to be the favorite route for persons going to either Washington or Oregon.

For pamphlets fully descriptive of the above named States, or for rates, time of trains or any information pertaining to the Union Pacific call on or address your nearest ticket agent or the undersigned, who will most cheerfully furnish any information that may be desired. J. D. Welsh, Gen'l Agt. U. P. Sys., 27 W. Fourth street, Cincinnati, O.

"I want a hard-boiled egg, waiter. Boil it, say, four minutes. And hurry up, too," added the traveler; "my train goes in two minutes."—Harper's Bazar.

Trades and Occupations.

THE YOUTH'S COMPANION for 1891 will give an instructive and helpful Series of Papers, each of which describes the character of some leading Trade for Boys or Occupation for Girls. They give information as to the apprenticeship required to learn each, the wages to be expected, the Qualities needed in order to enter, and the prospects of Success. To New Subscribers who send \$1.75 at once the paper will be sent free to Jan. 1, 1891, and for a full year from that date. Address—

THE YOUTH'S COMPANION, Boston, Mass.

"Don't you know, prisoner, that it's very wrong to steal a pig?" "I do now, your Honor. They make such a row."—Spare Moments.

Must not be confounded with common cathartics or purgative pills. Carter's Little Liver Pills are entirely unlike them in every respect. One trial will prove their superiority.

The man who can write love-letters without making an ass of himself has kept the matter very quiet.—Ham's Horn.

Piso's Cure

For

Consumption

My wife and child having a severe attack of Whooping Cough, I thought that we would try Piso's Cure for Consumption, and found it a perfect success. The first bottle broke up the Cough, and four bottles completely cured them.—H. STRAINOR, 1147 Superior St., Chicago, Illinois.

But do you use SAPOLIO? If you don't you are as much behind the age as if you cut grass with a dinner knife. Once there were no soaps. Then one soap served all purposes. Now the sensible folks use one soap in the toilet, another in the tub, one soap in the stable, and SAPOLIO for all scouring and house-cleaning.

What folly it would be to cut grass with a pair of scissors! Yet people do equally silly things every day. Modern progress has grown up from the hooked sickle to the swathing scythe and thence to the lawn mower. So don't use scissors!

THE HERALD,

AN INDEPENDENT WEEKLY NEWSPAPER.

SATURDAY, NOV. 29, 1890

W. H. BLAIR, Editor and Prop'r

PRICE \$1.25 PER ANNUM.

Dick Townsley, of Springfield, called on Cedarville friends Monday.

Mrs. Edward Harrison, a prominent lady living at Lagonda, Clark county, died Saturday morning at her residence. She was devotedly attached to her daughter, Mrs. Colgan Burns, and grief at the departure of the latter for California was the cause of her death. She had no bodily ailment.

Cal Crain has gone to work to remodel the old Frazier store room. Its familiar front is now a thing of the past, as it has been entirely torn away and a handsome new front will take its place. The floor of the building will be lowered so that it will be easy of access and other changes made that will materially add to its appearance. Mr. Crain expects to be able to move his stock into that building by the first of January.

A runaway caused considerable excitement in Cedarville about six o'clock Monday evening. Mr. James McMillan had been to Xenia and stopped in front of his sister's residence upon his return, to get his mail. While standing his horse managed to slip its bridle and started at once on a dead run, up Xenia Avenue to Main street, thence on to Washington street past the old Baptist church. When opposite Mrs. Irvine's the buggy was dashed to pieces and Mr. McMillan was thrown under a wagon, sustaining several slight bruises. He went at once to Dr. J. O. Stewart's office where his wounds were attended to. Mr. Mc. had a very narrow escape, to say the least.

From the report of Secretary Porter, of the census office, just received, we learn the following facts: The population of the United States has increased in the past decade 24.57 per cent. The population exclusive of white persons in the Indian territory, Indians on reservations and Alaska now being 62,480,540. Ohio has a population of 3,666,719, an increase of 463,657 or 14.65 per cent. She, however, is obliged to take fourth place, Illinois having 1,511,817 more inhabitants, having made an increase of 24.06 per cent. The report makes very interesting reading.

Many old soldiers, who contracted chronic diarrhoea while in the service, have since been permanently cured of it by Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by B. G. Ridgway.

Back to the Old Way.

After deliberate consideration on the corps of physicians employed by the Jackson Manufacturing Co., to investigate the so-called advance in medical science with reference to the treatment of lung troubles, they have decided that the old reliable medicinal properties of Wild Cherry Bark and a highly eliminated preparation of Tar, possesses the most reliable stimulant to the weak and distended lobes of the lungs. They are nature's own remedies, and as a consequence the manufacturer has decided to continue the sale of Jackson's Wild cherry and Tar Syrup under a positive guarantee that one dose will relieve the most obstinate cough and one bottle will generally cure a cold. Price 25 and 50 cents. For sale by B. G. Ridgway.

TO TENNESSEE.

Excursions via the Pennsylvania Lines December 2d, 3d and 4th.

Excursion tickets at one fare for round trip will be sold via the Pennsylvania Lines to Dayton, Tenn., on December 2d, 3d, and 4th, on account of land sales. Tickets will be good returning ten days from date of sale.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents a box. For sale by B. G. Ridgway's.

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at B. G. Ridgway's Drugstore, regular size, 50 cents and \$1.00.

EUPEPSY.

This is what you ought to have, in fact you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you Good Digestion and oust the demon Dyspepsia and install instead Eupepsy. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and \$1.00 per bottle at Ridgway's Drugstore. (4)

Experiments in Treating the Cucumber Beetle.

There are few injurious insects for which more remedies and preventives have been recommended than the Striped Cucumber Beetle—the everywhere abundant yellow "bug" with black stripes along its back which attacks squashes, cucumbers, melons, and in fact nearly all cucurbitaceous plants. A large portion of these remedies are doubtless worthless, if indeed not positively injurious.

In order to get a more definite knowledge of the preventive or remedial value of these various substances, the Ohio Experiment station began last season a series of experiments in which it is designed to give each a practical field test, and, if possible, to arrive at some reliable conclusions for the guidance of the interested public. The results of last year's work showed that many of the so-called remedies are worthless—some even being worse than the disease. The experiment were continued this year on an extensive scale. A field of two acres was put in good condition by the use of plow and harrow, and was planted to squashes, melons and cucumbers according to the ordinary plan of growing these vegetables. The seeds came up early in June and the first Striped Beetles appeared soon after. They then came in great numbers, and destroyed a large number of plants before they could be treated.

Two general methods of treatment were employed: (1) Coating the plants with poisonous substances, and (2) fencing out the insects by mechanical barriers. The best success was attained in the first class of remedies, by the use of tobacco powder—the refuse packing of the cigar factories. A number of barrels of this substance were obtained at a cigar factory. A shovelful of the powder was thrown on each hill. The first application was made to eighty hills June 12. Rains coming soon after, it was repeated June 14, 16 and 17. The re-

sults were excellent. The beetles seemed to dislike working in the tobacco and the plants on all the hills so treated came through in good condition. Aside from its value as an insecticide the tobacco acts both as a mulch and fertilizer. Chemical analysis shows that its market as a fertilizer is twenty-five dollars per ton. In many eastern cities it is being utilized, but in Columbus and other Ohio cities many of the factories are glad to give this refuse to any one who will take it away.

Various methods of mechanical exclusion of the beetles were again tried with good success. This may be done by simply placing over the plants a piece of thin plant-cloth or cheese-cloth, about two feet square and fastening the edges down by loose earth. It is better, however, to hold the center of the cloth up by means of a half barrel hoop or wires bent in the form of a croquet arch.

It is frequently stated that these beetles will not attack plants if simple frames, consisting of four pieces of boards nailed together, without a top of any kind, are placed over the hills. This method was tried with a number of frames ranging from four to ten inches in height. As anticipated, the method was entirely unsuccessful, every plant of the hills so covered being destroyed by the beetles.

Our Subscription List.

In speaking of its large subscription list the Pittsburgh Stockman says:

We have recently made a careful count of our list of paid-in advance subscriptions. We find that we now have over 45,000 actual subscribers. We do not include in this list those who receive the paper as advertisers, correspondents or exchanges. The paper goes to every state and territory and has subscribers in every county in Pennsylvania and Ohio. The last named State leads with over 21,000 subscribers. Our heaviest list in single counties is of course in the counties of Western Pennsylvania—that

surround Pittsburgh, Washington county leading all others with 1,134 subscribers. We have made a classification of our list by counties in Ohio and think our readers there will be interested in examining the following items as to our subscription list in the Buckeye State:

The Stockman has subscribers at every postoffice in the counties of Carroll, Clinton, Coshocton, Delaware, Holmes, Knox, Madison, Mahoning, Union and Wayne. In this list Wayne leads with 650 subscribers, an average of over 17 at each office. Mahoning follows with 630 and a similar average, Knox coming next with 536 and an average one higher. The average per office in these ten counties combined is nearly 14.

Belmont county has 868 subscribers at 66 offices, and is surpassed only by Columbiana with 869 subscribers at 52 offices. Among other counties with good lists are Guernsey, 540; Harrison, 501; Licking, 615; Muskingum, 611; Stark, 615; and Tuscarawas, 506. These counties show an average of from 12 to 16 subscribers at each office where the paper is taken, but at from 2 to 4 offices in each of these counties it has no subscribers.

The counties of Crawford, Fayette, Morrow, Pickaway, Trumbull and Warren have each but one office not on the list, and show an average of from 9 to 17 at the remaining offices. Fairfield's list averages 11 at each office; Hardin's, 15; Jefferson's, 15; and Richland's, 11; but it remains for Wyandot to surpass all others in the average, as that county has 423 subscribers at 17 offices, an average of nearly 25 each.

We can bring forth no better argument on the merits of the Stockman than the fact that it is so acceptable to so large and intelligent a class of farmers. With its 24 pages each week loaded with the best farm and home literature that can be produced it is not strange that its old friends have succeeded in introducing it into thousands of new homes. For this gener-

ous assistance we are truly grateful and we shall try to merit a continuance of these favors. We hope by this time next year to report substantial gains from all sections of the country.

For lame back there is nothing better than to saturate a flannel cloth with Chamberlain's Pain Balm and bind it on the affected parts. Try it and you will be surprised at the prompt relief it affords. The same treatment will cure rheumatism. For sale by B. G. Ridgway.

READ THIS TWICE!

The only Protection that will effectually protect all people, all classes, all labor and all interests is that styled SELF PROTECTION! acquired only from a truthful knowledge of ways and means, legal and illegal, just and unjust, by which the burdens of government, profits of labor and industry, are so unequally divided.

That knowledge is power, and ignorance its slave, is forcibly illustrated daily in all walks of life, among all people, in all countries.

Where knowledge is used as a power or a means for gaining wealth without labor or an equivalent therefor, it becomes necessary to deceive or keep in ignorance of such methods those from whom the wealth is taken; hence it is that of the ten thousand newspapers printed in the United States, less than ten are absolutely free and independent of the power or control of some class, party or monopoly whose interest it is to keep the great mass of people in ignorance of their methods.

The Cincinnati Weekly Enquirer is one of the few, if not the only one, absolutely free from such influences. It is the most honest, thorough, able teacher and exponent of truthful knowledge, of reliable data, free from partisan bias, fair, frank and explicit to such degree that one cannot but feel edified and capable of forming correct conclusions therefrom. Such a paper should be in every household. Sample copies can be obtained by addressing the publishers, at Cincinnati, O.

THE HERALD.

AN INDEPENDENT WEEKLY NEWSPAPER.

SATURDAY, NOV. 29, 1890

W. H. BLAIR, Editor and Prop'r

PRICE \$1.25 PER ANNUM.

NOTICE.

We are not selling out at cost, neither are we giving 10 and 20 per cent. off, but we are underselling everybody. Remember we give you more for your money than any other house in town in Clothing, Boots and Shoes.

J. E. Lowry.

This is no canard. I mean business. I have concluded to close out my entire stock of groceries at cost for cash as I want to quit business, and until January 1st you can obtain unqualified bargains in all goods in my line. I have no special days but my stock will all go at cost price every day until it is closed out. W. R. McMILLAN.

Miss Dela Tonkinson is recovering from typhoid fever.

Rev. S. M. Ramsey will preach in the R. P. church to-morrow.

Thomas Hogland has received a pension of \$12 a month and \$22 back pay.

Mrs. James Barber gave a dinner party to several of her friends Wednesday.

Miss Heaton, of South Charleston, is the guest of the Misses Milburn, this week.

The G. A. R. will hold their regular annual election the first Friday in December.

"Wood" Warner and Wm. Gano, of Springfield, was in Cedarville, Monday, on business.

Mrs. Anna Lloyd, of Farmersville, is the guest of her parents, Mr. and Mrs. John Jameson.

Rev. Black, of New Carlisle, was the guest of Mr. and Mrs. John McElroy, this week.

Mr. Paul Stewart, of Xenia Seminary, will preach at East Point, Sabbath at 8 o'clock p. m.

Mrs. Condon entertained a number of friends at her home on south Main street, yesterday evening.

Mrs. E. W. Van Horn who has been ill so long with dropsy, we are glad to say is improving.

Dr. W. G. Homan will be in Cedarville, Monday, December 1st, prepared to do all kinds of dental work.

The five-year-old son of Martin Badger died Tuesday and the funeral took place yesterday afternoon.

Notice to Hunters.

The undersigned give notice that no hunting will be allowed on their premises in Cedarville and Ross townships, Greene county, Ohio under the penalty of the law.

M. A. Barr.

Miss Mary Alexander, of Spring Valley, is the guest of Mrs. Dr. Oglesbee, this week.

Mr. J. B. Wilson, of Xenia Seminary will preach in the United Presbyterian church to-morrow morning and evening.

Mrs. Dickey and Mrs. Paxson entertained a number of friends from Yellow Springs and Jamestown, Thanksgiving.

The family of David Torrence held a reunion Thanksgiving day and enjoyed an old fashioned Thanksgiving dinner together.

The Women's Aid society of the M. E. church gave a very interesting social in Ervin & Williamson's hall Thanksgiving evening.

I have located in Cedarville and will follow my profession as jeweler and will repair watches, clocks and jewelry on short notice. Call at Fields' hotel.

Ed Smith was in Spring Valley Monday and Tuesday of this week and organized a local board for the Southern Building and Loan Association. Ed is doing a big business in this county.

The Tarbox annual family Thanksgiving dinner was held this year at the residence of Mr. Chas. Kyle, in Xenia. All the members of the family in this locality attended and report an elegant time.

The house in which Caleb Nooks lived took fire Thursday morning and was razed to the ground. Mr. Nooks, who was out feeding stock noticed the fire and attempted to put it out, but it had got too far under headway. Neighbors came to his assistance and a few of his household goods were saved. The balance were insured, as was also his house.

Miss Minnie Turnbull entertained a few of her most intimate friends Wednesday evening at her beautiful home southeast of Cedarville. It was a most pleasant event socially. An elegant dinner was served at seven o'clock, after which the guests enjoyed themselves by participating in the various amusements furnished by their hostess.

For weeks our best local talent has been rehearsing for the military drama "Alltoona" and are becoming quite proficient in the various characters. The entertainment will be in the opera house on the evenings of December 17, 18 and 19, and should be well patronized, as those who have charge of the play are sparing neither labor or expense to make it the finest ever produced in this place.

In Memoriam.

Lizzie McIntire, second daughter of Mrs. Margaret McIntire, died at her home in Cedarville on Saturday morning, November 22, after a long and painful illness. Her sickness she bore with patience and meekness, and passed away in the hope of a blessed immortality. The deceased had a host of friends, many of whom waited upon her with kind attentions during her sickness and followed with sorrow her remains to their last resting place. The bereaved family return their sincere thanks to the friends for their kind attentions during their affliction.

Miss Nellie Clark, of Xenia, visited Miss Ida Barber this week.

A party of nimrods from Jamestown consisting of Al and Will Zeiner, Ed Thomas and Al Wickersham, took a three days hunt near Gallion, this week and killed in that time 632 quails, 141 rabbits, 8 pheasants, 8 storks, 30 jack snipes, 10 wood cock, and 1 owl, which they brought home with them. Not a bad record for amateurs.

The Nashville Students were listened to by about 350 persons Monday evening. It was by far the finest entertainment that has been here for years and the audience appreciated it. Other amusements equally as good will doubtless follow, as the citizens in this vicinity have given substantial evidence that they will patronize good entertainments.

Mr. Hugh Stormont and Miss Fleete Milburn are married. This time there can be no doubt. Thursday morning about 9 o'clock they were driven to the residence of Rev. Warnock and there united in marriage, the ceremony being witnessed by only six of the relatives and friends. They then went to Xenia where they took the train for Cincinnati, and will remain until this morning when they return to Cedarville and will at once commence housekeeping on Grove street where they have a house already furnished. There is none more popular among the citizens of Cedarville than is both Mr. and Mrs. Stormont, and their many friends unite with the HERALD in tendering their congratulations.

Miss Lizzie McIntire died at the home of her mother in North Cedarville, last Saturday morning, after a lingering illness. The funeral services were held at the old Covenant church on Xenia Avenue, Monday afternoon at 2 o'clock and was conducted by Rev. Sproul. The floral offerings consisted of a star of roses and a beautiful bouquet, the offerings of the "Y's," a society of which Miss McIntire was an active member while blessed with health. The bouquet was tied with white ribbon, the insignia of the order, on which was letters in gilt representing the name of the society. After the services the body was interred in the cemetery west of Cedarville.

The delightful home of Dr. and Mrs. Oglesbee was the scene of a most enjoyable entertainment Thanksgiving evening, the charming event being a supper served by Mrs. Oglesbee and her friend, Miss Alexander, of Spring Valley. The table was the personification of elegance, being decorated with rare silver, while the centerpiece of chrysanthemums lent a charming effect. The guests paid the highest compliment possible to the menu, remaining at the table about an hour and a half. After supper some fine selections of music were rendered which were highly appreciated. Socially the evening was an enjoyable one and the Doctor and his estimable wife were warmly congratulated on their evident success. About forty guests were present, those from a distance being Miss Alexander and Wm. Neels, of Spring Valley; Dr. and Mrs. Patton, of Selma; Miss Black, of New Carlisle and Herbert Folger, of Cincinnati.

D. M. STEWART & CO.
XENIA, OHIO.

An honest Swede tells his story in plain but unmistakable language for the benefit of the public. "One of my children took a severe cold and got the croup. I gave her a teaspoonful of Chamberlain's Cough Remedy, and in five minutes later I gave her one more. By this time she had to cough up the gathering in her throat. Then she went to sleep and slept good for fifteen minutes. Then she got up and vomited; then she went back to bed and slept good for the remainder of the night. She got the croup the second night and I gave her the same remedy with the same good results. I write this because I thought there might be some one in the same need and not know the true merits of this wonderful medicine." Charles A. Thompson, Des Moines, Iowa. 50 cent bottles for sale by B. G. Ridgway.

OFFICE OF DITTOE & GALLIN, Dealers in fine horses, Columbus, O. GENTLEMEN—Early last spring one of our horses was seriously injured by being kicked. Arabian Oil was recommended to us and we gave it a trial. The result was not only satisfactory, but surprising. The wound healed rapidly, and the animal was ready for use in a few days. Since that time we have by its use cured a number of cases of scratches and removed some bad cases of curb. Arabian Oil is undoubtedly the best general Stock Liniment that we ever used, and we advise Farmers and Horsemen to keep a supply of it in their stables at all times. Yours Respectfully, DITTOE & GALLIN. We offer \$100 for a case of Scratches Arabian Oil will not cure. For sale by B. G. Ridgway.
